

Field Advantage Evolution — Japan 2026

Drivers: ANT, RUS, PIA, LEC

This graph was selected because these drivers form a relevant comparison group for Japan 2026. On this metric, ANT leads the selected set in average Field Advantage. Gap to next best: 0.303.

Higher is better. Field Advantage measures structural execution relative to the field baseline. Positive values indicate control and dominance over the field; negative values indicate structural deficit.
