

Field Advantage Evolution — Japan 2026

Drivers: ANT, LIN, HAD, BOR, LAW, COL

This graph was selected because these drivers form a relevant comparison group for Japan 2026. On this metric, ANT leads the selected set in average Field Advantage. Gap to next best: 1.157.

Higher is better. Field Advantage measures structural execution relative to the field baseline. Positive values indicate control and dominance over the field; negative values indicate structural deficit.
